	<b>Homepage</b>					
<b>Course Information</b>	<b>Class No.</b>	TBA	<b>Course Code</b>	TBA	<b>Credits</b>	3
	<b>Course Name</b>	Introduction to Finance				
	<b>Lecture Schedule</b>	Mon-Sat / 13:00 – 16:00				
	<b>Course Description</b>	<p>This course offers non-finance majors a broad overview of the fundamental concepts of finance. Students will examine key topics such as the time value of money, risk and return, capital budgeting, and the foundations of corporate finance. Emphasizing practical application, the course equips future business leaders with the skills to use financial principles effectively in real-world managerial contexts.</p> <p>*** This course is designed for <b>students with no background in economics and finance</b>, so you do not need to worry about the difficulty level. Workshop sessions include a review of key concepts, problem-solving, and Q&amp;A discussions. Both workshop sessions and assignments are closely aligned with the exams. Solutions to the problems covered in these sessions and assignments will be distributed prior to each exam.</p>				
	<b>Course Objective</b>	<p>Through this course, students will develop the following competencies:</p> <ul style="list-style-type: none"> <li>- Understand and apply the time value of money in financial decision-making.</li> <li>- Analyze the relationship between risk and return.</li> <li>- Perform basic capital budgeting and project evaluation.</li> <li>- Apply corporate finance concepts to managerial decision-making.</li> <li>- Develop critical thinking and problem-solving skills related to finance.</li> </ul>				
	<b>Prerequisite</b>	None.				
	<b>Materials/Textbooks</b>	Lecture slides will be provided. No textbook is required.
