Course Information	Class No.	18003	Course Code	ISS1233	Credits	3
	Course Name	Social Psychology: K-Pop Edition				
	Lecture Schedule	Tue-Fri / 9:00am-12:00pm				
	Course Description	<p>In this course, students are introduced to the field of Social Psychology – the scientific study of how people think about, influence, and relate to one another – as viewed through the lens of K-Pop music and culture. Topics include the psychology of love and relationships, attitudes and behavior, social influence, personality and individual differences, social cognition and social emotion, stereotyping and prejudice, cross-cultural communication, and modern-day stress, with a focus on how these themes are reflected in the music, lyrics, business, fandoms, and multi-generational evolution of K-Pop. We will consider the work of artists such as H.O.T., SHINee, BTS, Girls' Generation, G-Idle, Dreamcatcher, Stray Kids, Tomorrow x Together, IU, eAeon, Twice, ATEEZ, Oh My Girl, Black Pink, NCT, Mamamoo, Red Velvet, BLACKSWAN, Katseye, the Rose, Seventeen, Itzy, Enhypen, ZEROBASEONE, Seo Taiji and Boys, Exo, YENA, and more – including songs selected by students. For many students, this course will fulfill credit toward a Social Psychology course requirement in their home university.</p>				
	Course Objective	<p>Through participating in class sessions and staying up to date on course readings and assignments, students will gain knowledge of social psychological research and theory and apply this knowledge to the analysis of various aspects of K-Pop music and culture. Students will also examine how social and cross-cultural psychologists conduct the laboratory and field experiments that shape current theories in the field.</p>				
	Prerequisite	- No prerequisites (waived for HISS)				

	Materials/Textbooks	<p>Text: Branscombe, N. R., & Baron, R. A. (2017). <i>Social psychology (14th Ed.)</i>. Boston, MA: Pearson.</p> <p>Journal Articles (Provided by instructor): Jo, W., & Kim, M. J. (2023). Tracking emotions from song lyrics: Analyzing 30 years of K-pop hits. <i>Emotion</i>, 23, 1658–1669. Laffan, D. A. (2021). Positive psychosocial outcomes and fandom in K-Pop fans. <i>Psychological Reports</i>, 124, 2272–2285.</p> <p>Course Playlist: Click here for link to course Spotify playlist.</p>
